

This sheet will help you review the way you worked within your team. Read each statement and tick the boxes that most nearly represent your views. As there are no 'right answers' it is important that you note your personal views, not what you think others will think or will want to hear. As you work through the statements note your ideas for improvement and topics for discussion in the end column.

1. Think about the way you and the other members of your group tackled the task. In your opinion which two aspects of the way the group worked:

i)           should everyone be pleased with?

ii)           were most detrimental to your performance?

2. When tackling your next task your group will do better if:

i)

ii)

3. When tackling your next task your group will do better if members DO NOT:

i)

ii)
